This expetable production being of a permure that, led to experimen this to its medical qualities and virtues. In half a century it became an established medicine for the dis-extent of that roundry. The extract of this singular production was introduced in some parts of Europe in the year 1783 and used by many celebrate. physicians in caring extent dis-eases where all other medicines had been used in role. Farly in the year 1792, the exernet was combined with a ner getable medicine imported from Dura Baca, in the east Indies, and formed into phis. The admirable effect of this compound upon the human system, led physicalin and families into its general use. Their tong cetablished character, their univer-sal and healing virtues, the detergent and cleaning qualities of their specifical action upon the glandular part of the eye-tem, are such as will sustain their reputation and general use in the American Republic.

CERTIFCATES. I certify that I have, by way of experiment, used the Hy gean, and most of the various kinds of Pills, in my practice which have horse the highest repute in the public estimation. that have been offered for sale in this vicinity for the inst five years, included those called the Resurrection or Persian Puls; and the public may rest assured that none among the whole eatalogue has answered a better purpose, as an easy and of fectual remedy, than the Rusurrection or Persian Pills, in most cases of disease. Muserus, E. Cuase & Co .- Gents. - Bearing much said a. boat the extraordinary effects of the Resurection or Persian Pills upon those about to become Mothers. We were induced to make a trial of them. My wife was at the time the mother of 5 children, and had suffered the most tedious and exeruciating pains during and after her confinement of each. She had tried overy means and taken much medicine but found little or no relief. She commenced taking the Persian Pills ahout 3 months before her confinement, (her health being very poor about this length of time previous) and soon after was en abled by their use to attend to the cares of a mother to her fam ily until her confinement. At the time she commenced taking the Persian Pills, and for several weeks previous she was af-fleted with a dry hard cough and frequent severe cramps, which the use of the Pills entirely removed before using half a box. It is with great confidence that we advise all those about a become mothers, to make use of the Persian Pills. All those that have taken them in our neighborhood have got along in the same easy manner, and are about house in a few days There does no appear to be half the danger of other difficul-ties setting in after confinement where these pills are taken. S ROBERTS. A O. ROBERTS

From the Rochester Daily Democrat. Mr. Editor .- Allow me, through the medium of your paper, to express my opinion of the very highly esteemed Persian sills; that is highly esteemed where known; for it is an indubi. table fact that all who become acquainted with them, dismiss every other popular remedy from their families and rely solely us on these. But it is a fact, not so generally known as should he that such persons invariably escape all the prevalent disea-ses of the season, and that not one has been known to be raken down with any sickness, who has kept, and taken these pills on the first symptoms of disease.

Mothers will have no excuse, but must charge themselves with unpardonable neglect when they see theirtender offspring dropping and sinking under diarrhun and bowel complaints, or their lives nipt in the bud, by neglected disease.

The increasing prevalence of consumption, excites great fear in those who are inclined to that fell disease—and well it may —but I am persuaded that if the Persian pills were taken in its first stages according to the directions, nine touths of those who are given over, might enjoy good health,

In fact, I speak with some degree of experience, for I have known several who have been given over, by physicians, to re cover by using these pills. Should not this be a sufficient in ducement for those who are in its first stages to make a trial of them? The time has come, when the heads of families can supply themselves with an autidote, which will quell in embryo the disease of the day -and to themselves is the fault chargeable if they allow the different members of their families to sink to an untimely grave. JEW DAVIDS OR HEBREW PLASTER. . This recipe, obtained of an old Jow, by a traveller in the Eastern countries, bids fair to be of immense value to the

Western world. A gentleman travelling in the south of Europe, and Palessine, in 1830, heard so much said in the latter pince in praise of Jew David's PLASTER; that he was induced to try it on his own person, for a lung and liver affection, the removal of which had been the chief object of his journey.

He accordingly applied a plaster on the right side of the

chest, where the pain was seated, another beween the shoul-ders, and one over the region of the liver. In the mean time he drank freely of an herb tea of laxative qualities. He score found his health improving: and in a few weeks his cough left him, the sallowness of his skin disappeared, his pain was re-

eved and his health became permanently reinstated. Since that time he has been recommending it to his friends and acquaintances, for all the fixed pains whatever; such as thenmatism, gout, headache, nervous teath-ache, pain in the side, hip, back and limbs, ulous humors, knots, wens, white swelling, hard tumors, stiff joints, ague in the breast, and the like to the united satisfaction of immeet and others.

No female subject to pain or weakness in the back or side,

should be without it. Married ladies, in delicate situations, and great relief from constantly wearing this plaster. The application of this plaster between the shoulders, has and a certain remady for colds, coughs, phthysic and

being affections, in their primary stages. It destroys inflammaon by producing copious prespiration.

No puffing, or great spread of certificates intended. Those

with to satisfy themselves of the efficacy of this plaster, can abtain sufficient to apread G or 8 plasters for 50 cents; a sum not half sufficient to pay for the insertion of a single certificate into any of our most common prints a single time

## RICHES NOT HEALTH.

Those who enjoy health, must certainly feel blessed when they compare themselves to those sufferers that have been af flicted for years with various discuses which the human famil ly are all sebject to be troubled with. Diseases present them-selves in various forms and from various circumstances, which in the commencement, may all be checked by the use of Dr O. P. Harlich's Gompound Strengthening and Genean Aperient ritts, Such as dyspepsis, Liver Complaint, pain in the side, rheumatism, general debility. Female diseases, and sill diseases to which human nature is affected. Directions for using these medi-ines always accompany them. These Medicines can be taken with perfect safety by the most delicate female, as they are mild in their operation and pleasant in their effecte.

HEALTH.

Many of our readers, no doubt, are possessed with this all-important blessing, which they may long retain, if particular regard and care be paid to themselves, that, whenever they feet the least indisposed, to procure a proper medicine in "due season." But, on the contrary, we find thousands who are laboring under disease, and many, we fear will prove serious if not attended to early. Would those persons resert to the medicine that has established itself in thousands of cases, which is Doctor HARLIGH'S COMPOUND STRENGTH-ENING & GERMAN APERIENT PILLS, so pre-emeinent by recommended for discoses incident to the human race, they yould be replaced back again to ·life's sweetest bleming which

We speak from occular proof, knowing, in many instances where cures have been performed by the use of this medicine, with marked success in various complaints, such as Dyspen-Liver complaints. Rheumatism Pain in the breast, side & Back, Costiveness, Nervous Weakness, Emaciation, General Deblity, &c. & This medicine consists of two distinct kinds viz:—The German Aperical and the Compusa Strengthening Toxic Pitts, the former to remove bile and all excrement tions matter from the body, thus cleansing and purifying the system after which the latter are used to give strength and vigor to the weak and debilitated organs, restore the lost appetite "and produce tranquil rest and sweet repose. TO THE PUBLIC. DR. HARLICH'S PILLS.

The superiority of Dr. Harlich's pills over any other medi cine that has ever been offered to the public, is, that they cleanse and purify and strengthen. These are important items and their importance should not be overlooked. The system is limble, from improvidence and neglect, to accumulate bille, and a variety of diseased humors. To purge he system of these impurities, should be early attended to. If it be neglected the nationt may be subjected to painful disease and protracted suffering. THE GERMAN APERIENT PILLS are admirably suited to this purpose-but more than this; while they cleanse the system they purify the blood, and assist nature kindly in her operations. The Compound strengthening Pills give tone to the stomach, while they impart vigor to the whole system; hence they are a desideratum, and no family should remain without them. In fact they are a sort of 'family physician,' but unlike the "school men" --- for these Pills may be eafely consulted in all cases—they may be taken without injury in any—while they afford positive relief in many. We only ask for a fair trial of their meras.

LIVER COMPLAINT.

This disease often terminates in another of a more serious nature, if proper remedies are not resorted to in time. In all forms of this, Dr. Harlich's Compound Strengthening and Ge man Aperient Pills, will perform a perfect care-first, by cleansing the stomach and bowels, thus removing all diseases from the Liver, by the use of the German Aperievt Pills, after which the compound Strengthening Pills are taken to give strength and tone to these tender organs which require such treatment only to effect a permanent cure. The pills are nestly put up in small packages, with full directions. For sale at No. 19 North Eighth Street. Also, for sale at the Store of

Dyspepsia of ten years standing. I am truly happy to state to the afflicted community that a member of my family was afflicted for ten or twelve years with the above distressing disease. The symptoms were great oppression after eating, addity at the stomach, a severe pain in the side and breast, sick head sche mental despondency, with other rymptoms during which time annerous remedies were procured without obtaining much relief. Having heard of the good effects of Dr. Harlich's Compound strengthening and German Apericat rates, I was induced to give them a trial, which I am hanny to state that by using one box of the German Aperient riats, I was induced to give them a trial, which I am happy to state that by using one box of the German Aperient rits, accompanied by the Strengthening Tonic PILLS, that they have nearly eradicated the disease. I consider it due to those afflicted that I make this acknowledgement, that they may likewise procure the same invaluable medicine, and be freed from those distressing diseases.

It is a first that all systems are liable from improvidence and
neglect to accumulate Bile and a variety of discussed humors.
To cleanse the system, it should be early attended to. If neglected the put lent is certain to be afficient with a painful discuse and protracted suffring. Nearly all classes of discuse
are caused by some obstructions in the system which prevent
the regular and whole some operation of the animal functions. This state of the system is disease, which is manisfested in a variety of forms more or less malignant, in their character, To restore the system to a state of health, then, it is only nocessary to remove the cause of disease, and the end is accom-The cause is obstruction somewhere. This can be removed by purgation, which is the only means that should be resorted to, because suggested by reason and by unture.

It is therefore in portant to cleanse the system of all those unhealthy obstructions, purify the blood and assist nature windly in all her operations. This object is easily obtained by using a box or two of the "American Antibilious or Life Pills' allowed by the thousands who have used them, to be the best purgative medicine in existence. Because they not only ree all obstructions, and purge the system of its impurities. but because, and which is extremely important, strengthen and give proper tone to the stomach, and produce a healthy action of all the parts. Besides they are so mild and gentle in their operation, as to tender them at all times a perfectly afe and desirable remedy. The afflicted would do well, then, to purchase a box or two of this invaluable medicine, and give it a fair trial, instead of destroying their systems with oft repeated doses of Calomer and other drugs so injurious to hu-

man life and happiness.

In the accute and inflammatory torm of diseases, such as fevers of all kinds, Colic, Dysentery, Cholera Morlins, Rheumatism, Small Pox, Violent pains, Neuralgia, Apoplexy, Pieurisy, and all other violent attacks the dose must be from 3. to 4 pills, until the pain or inflammation is subsided, when it roay be diminished so as to keep the bowels gently open. In all Chronic Complains, or diseases of long standing, the ordinary dose is from two to three Pills taken when retiring

## FEVER AND AGUE

Of all Diseases of a febrile character, intermittent or Fever and Ague is the most simple in form and the most difficult to eradicate from the system. This Fever has been known from the earliest ages, and is most prevalent in wet marshy cli-mates, and in the neighborhood of canals, rivers, stagnant wa-ters, and caused by damp, houses, evening dews. lying on the damp ground, and many other causes that diminishes the per-spiration, and obstructs the circulation in the small vessels disposes the body to Agues. -- PEVKR AND AGUE" is described in three different forms, the Cold, Hot, and Sweating Stage; the first symptoms of this disease are generally languar, riddiness in the head, with alternate fits of heat and cold, pain in differ ent parts of the body, furred tongue, the eyes and skin frequent ly appears yellow; billious vomiting, and great thirst. Nu-merous other symptoms are developed, which are very difficult to describe, as they vary according to the season and the con-stitution of the patient. Those who are subject to this affliction, are well acquainted with its severity and attending distress, and need therefore not be told of it. The country is flooded with thousands of Specifics; such as mixtures, pills and a host of other remedies; but they have all proved unsuccessful. Qui NINE has been used in immense quantities, but found to give only temporary relief, and thousands made subjects for the grave by its deleterious and imprudent use.

Those afflicted with the different stages of this troublesome Discuse should immediately obtain Dr. HARVEY'S COM-POUND CURE, which is warranted to break the fever and restore the system again to sound health, if used according to the directions. "Some things can be done as well as others." Kilgore & Hull,

A RB now receiving in part, their supply of GOODS for the The coming season, and for par mency, are determined not o be undersold by any other establishment in this section of Ohio. In fact, they intend as far as possible to make it the interest of all to pay cash for their goods. Therefore all who have purchased goods from them on credit, and have not nor cannot now pay off their accounts with them, or make some satisfactory arrangement are assured that they cannot urther extend their credit. But on the other hand those whom hey know to be prompt pay, will still find them happy to grant to those a short credit. Itwas originally their intention to not have sold goods one redit, much less on long credit. And is now becomes necessary to adopt this mode of doing business in future, in order that they may be enabled to sell their goods at the LOW PRICES they now offer them, and they flatter themselves, that the prompt pay system will meet the approbation of a large m jority of their customers.
